

Pressure pumping & washing equipment

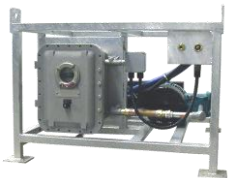

ELECTRIC DRIVEN, COLD WATER PRESSURE WASHING & PUMPING SYSTEMS

Available Specifications:
1000 psig to 7250 psig / 2 gpm to 200 gpm

ELECTRICALLY HEATED, HOT WATER PRESSURE WASHING SYSTEMS

Available Specifications:
1000 psig to 5000 psig / 2 gpm to 16 gpm

EXPLOSION-PROOF, HOT & COLD WATER PRESSURE WASHING SYSTEMS -

Class I,II, Division 1, Groups C, D, F & G

Available Specifications:
Cold Water-1000 psig to 7250 psig / 2.2 gpm to 65 gpm
Hot Water-1000 psig to 5000 psig / 2 gpm to 16 gpm

VFOS (VARIABLE FREQUENCY OPERATING SYSTEM), MULTI-STAGE, AND TANK-FED PRESSURE WASHING & PUMPING SYSTEMS

Available Specifications:
1000 psig to 5000 psig / 8 gpm to 100+ gpm

NATURAL GAS & PROPANE FIRED HOT WATER PRESSURE WASHING SYSTEMS

Available Specifications:
G30/P30 Series-1000 psig to 3000 psig / 4 gpm to 6 gpm
300,000 BTUH INPUT
(2)G40/(2)P40 Series-1000 psig to 3000 psig / 4 gpm to 16 gpm
395,000 & 790,000 BTUH INPUT

ENGINEERED PUMPING & PRESSURE WASHING SYSTEMS

Available Specifications:
Designed/built to application requirements
ASME B31.1, 2004 & N285.0 Class 6 code compliant designs
Certified safety, limit and performance testing and validation
MTC (material traceability certificate) Level II
